1. Problem Title : Online Shopping cart System

STRUCTURAL DESIGN

2. Class diagram

BEHAVIUIORAL DESIGN

3. Use-case diagram

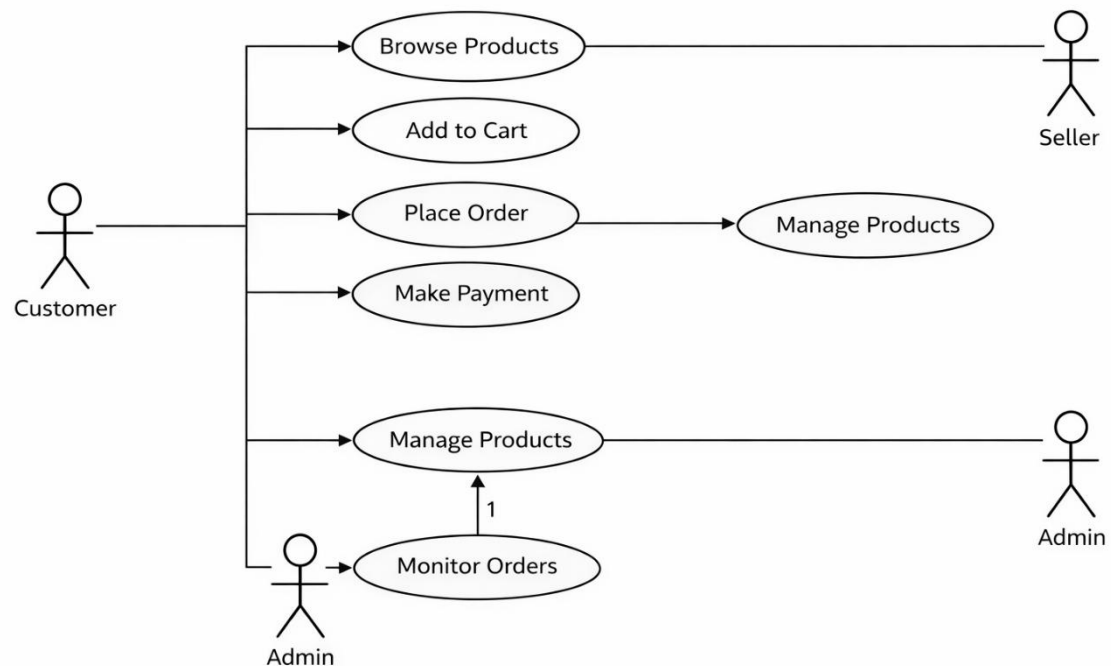

a. List of actors

1. Customer
2. Seller
3. Admin

b. List of use-cases

1. **Browse Products**
The customer views available products in the system.
2. **Add to Cart**
The customer selects products and adds them to the shopping cart.
3. **Place Order**
The customer confirms the cart and places an order.
4. **Make Payment**
The customer completes the payment for the order.
5. **Manage Products**
The seller adds, updates, or removes products in the system.
6. **Monitor Orders**
The admin monitors and manages all orders in the system.

c. Use case diagram (use UML notations)

4. Sequence diagram

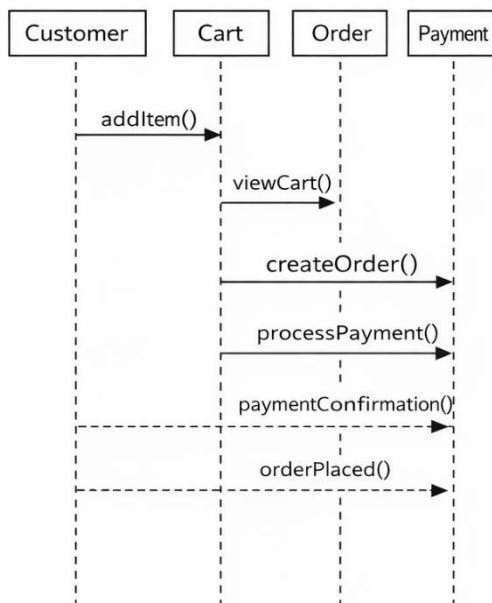

a. Place Order

The customer browses products, adds items to the cart, proceeds to checkout, makes payment, and the system confirms the order.

b. Manage Products

The seller adds or updates product details, and the system updates product information and confirms the action.

Sequence Diagram 1: Place Order
